## “Sati (Fire II)” - live version

### From the album “Solar Time’s Fables

**Sati** is a Hindu goddess, first wife of Shiva, deity who destroys evil and transforms the material world.

This song narrates the story of Sati’s self-immolation as an act of honor and as an extreme response of her father’s humiliation toward her husband.

The story represents the fire on this music album, according to Fabulae Dramatis’ concept: the relationship between humanity and natural elements throughout time.
