## A FASCINATING MUSICAL JOURNEY

that brings us to all corners of the musical spectrum.

Fabulae Dramatis  
is a Progressive  
Metal band fusing  
together several art  
disciplines such as  
music, videoart and  
theatre.

Their music was described by  
Classic Rock Society magazine as  
having "deep thought and insular  
attention" paid to it with "the  
spirits of Zappa and Beefheart".

Fabulae Dramatis strongly  
thinks out of the box and  
brings a mixture of  
Therion, Ram-Zet and The  
Residents, but the other  
way around. Very quirky,  
challenging and quite  
unique". (Zware Metalen)

"I'm sure that, when you  
have the chance to see  
them in video or live, it will  
be something spell-binding  
for your mind and retina".  
- HELL'ZINE COLOMBIA -

"Three years after  
the second LP  
"Solar Time's  
Fables", the  
Belgians re-emerge  
with a single that  
matches the name  
they carry".

THERE IS A WHOLE STORY TO  
BE TOLD ABOUT A CITY AND  
THAT IS WHAT THEY DO.

## Orkus!

"Tango rhythms  
with growling  
telling a  
dramatic story?  
Fabulae  
Dramatis show  
how this can  
work".

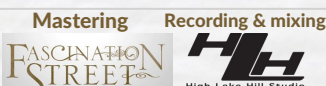

Katrin Hemmerling.
